The origin

East Godavari's One District One Product is fruit-based foods: pickles, mango jelly, fruit pulp, cashew and lemon products. Coastal Andhra pickles are known across India for their heat and for the cold-pressed gingelly oil and mustard that preserve them.

Avakaya, made from raw mango, Guntur chilli, mustard and gingelly oil, is the best known. Gongura, made from sorrel leaves, is the one people from Andhra miss most when they live abroad.

Varieties and forms

Avakaya	Raw mango, Guntur chilli, mustard, gingelly oil. The signature Andhra pickle.
Gongura	Sorrel leaves with red chilli. Sharp, sour and very Andhra.
Lemon, tomato, ginger	Everyday pickles, oil- or brine-based.
Mixed vegetable and garlic	For food service and mixed retail ranges.
Mamidi tandra	Sun-dried mango jelly sheets from the Godavari delta.
Podis	Dry spice powders such as kandi podi and karivepaku podi.

Season

Mango pickles are made in April and May and sold all year; other pickles are made year-round.

Market trend

Indian pickles sell to the diaspora in the US, UK, Gulf, Australia and Canada, and increasingly to mainstream shoppers in the world-food aisle. Buyers are asking for lower-oil, preservative-free recipes and clean labels.

Mustard and sesame are declared allergens in the EU and several other markets, so labels are checked for each destination before printing.

How an order works

Requirement → producer shortlist with approvals → samples and lab tests → contract and proforma invoice → production and pre-shipment inspection → bill of lading, certificate of origin and health or phytosanitary certificates. Specifications, prices and lead times are confirmed in writing for each order.
